EQUAL EDUCATION

The aim of inclusive quality education is to put an end to all forms of discrimination and thereby foster social cohesion. Every child has the right to quality education and learning. Inclusive education is the most effective way to give all children a fair chance to learn and develop their skills. To practice this, we have developed and designed our school's classrooms, programs and activities such that all the students can learn and participate together.

Here at MEMS, we motivate children to participate in different co-curricular activities, helping them to gain confidence and develop their skills. We provide a positive climate and ensure students progress towards appropriate personal, social, emotional and academic goals.

YOUR FUTURE AWAITS

ABOUT US

MEMS is an institution which was envisaged to provide young students with a healthy environment to nurture themselves cognitively, intellectually, artistically and athletically; along with also imbibing our moral and cultural values, which will enable them to become responsible global citizens of tomorrow. Our caring teachers devote themselves to our students and their needs every day; while also being their guardian, mentor and friend.

At MEMS, we aspire to provide our students with holistic education across the learning spectrum. We guide our students to nurture their own interests and then channelise their fresh energy towards harnessing their special talents and abilities; whether academic or otherwise.

WHY CHOOSE US?

We ensure that each student feels nurtured, challenged, encouraged, and valued. We encourage every child to dream big. Dream big of what they can do today; dream big of what they can do in the future. We believe they will have many opportunities throughout their life to make a difference — to make a difference in their family, to make a difference in their school or their community, to make a difference in what they do professionally. We give them the opportunity to cast their pebbles, to create those ripples, and to spread their wings.
